

## Construction Certificate/ Modification of a Construction Certificate Lodgement Checklist – Building Work

The following information must be lodged with any Construction Certificate (CC) Application or Modification of a Construction Certificate.

Before filling in this checklist and lodging your application with Council, please ensure that your plans and supporting documentation achieve the minimum expected standard and quality as outlined in Schedule 1 of the *Environmental Planning and Assessment Regulations 2000* and this Checklist.

Please ensure that the plans, details and supporting documentation are legible and complied in parts as indicated within the sections found in the checklist.

This checklist does not form part of any approval, but forms an integral part of the application.

It is important to note that applications that do not meet the minimum standard will be returned to the applicant to enable the provision of the missing items or the rectification of the illegible items. Alternatively, the application may be refused without further advice.

Applications to Modify Construction Certificates require the submission of all the details originally provided/ required in conjunction with new plans, elevations, sections and details which clearly indicate all changes brought about by the modification and all plans being suitability coloured or otherwise marked to indicate the changes.  
The modified submission must not include any plans/ details that contain any of Council's previous Approval stamps/endorsements.

All documents are to be separate items on the USB or within the email and titled accordingly. An example of this is: CC Architectural Plans – Lot XX DP XXXXXX – 2 Smith Street Singleton

**NOTE: The applicant for a Construction Certificate or Modification to a Construction Certificate cannot be the builder.**

### Development Application No.

### Address

Fees and Administration	Applicant To tick	N/A	Office Use
<b>Completed Application Form:-</b> Showing			
• Ownership is correct			
• Property title details (Lot / DP) and address			
• Detailed description of the building			
• Are there other approvals required (if yes, are the application forms for these completed)			
• Principal Certifier nominated – (Is the separate Form included and completed?)			
• Builder or Owner Builder nominated (Builder - HOW insurance attached, O/B – Permit attached)			
• Class of building under the <i>Building Code of Australia</i>			
• ABS and Other Reporting requirements completed – materials to be used in the construction (using the abbreviations detailed on the Form – page 4)			
• Applicant's and Owner's Declarations completed <b>NOTE: If company the position title of the signatory is required.</b>			
• Payment of appropriate Application Fees including Contributions, Fees and Charges required by the Development Consent conditions			
• All documents supplied on CD, USB or by email to <a href="mailto:ssc@singleton.nsw.gov.au">ssc@singleton.nsw.gov.au</a>			
<b>Plan requirements for Construction Certificates (New work must be shown as 'coloured' on all plans for alterations or additions to existing buildings. Single line drawings for sections and floor plans are not acceptable)</b>	<b>Applicant To tick</b>	<b>N/A</b>	<b>Office Use</b>
<b>Site Plan</b> showing -			
• Appropriately scaled plan indicating True North Point			
• Owners name and street number on each plan, elevation and detail			
• Full site dimensions showing boundaries and gross site area (in square meters)			
If the work involves the alteration, expansion or rebuilding of an existing building a scaled plan of that building as it exists prior to any proposed work			

• Location of existing structures and their uses, including any OSSM system, if installed			
• A site coverage plan, accurately dimensioned, detailing distribution of vegetated areas and impervious areas (Basix development)			
• Boundary setbacks (distance to two closest / corner block all boundaries)			
• Distances of existing structures to the proposed building			
• Storm water drainage plan showing the method and location of stormwater disposal outlet together with the location of rainwater tanks showing size of tanks (if required or proposed)			
• Details of the drainage to and point of discharge of drainage to any retaining wall or excavated or filled battered banks			
• Driveway location and driveway to carports, garages and parking areas.			
• BASIX detail requirements			
• Swimming pools must show: <ul style="list-style-type: none"> <li>○ Pool fencing and location of gates; including height of and Australian Standard of pool fence</li> <li>○ Australian Height Datum (AHD) reduced to existing/proposed levels</li> <li>○ Location of filters/pumps and backwash discharge</li> <li>○ BASIX detail requirements (over 40,000L)</li> </ul> <b>Note:</b> Existing and Proposed levels in AHD <b>Note: RL level may be acceptable provided all levels relate to a permanent fixed height datum which is clearly indicated on the plan.</b>			
• Sediment and erosion control measures			
• Plans stamped by Hunter Water Corp			
<b>Elevations and Sections showing -</b>			
• Appropriately scaled (1:100 is preferred)			
If the work involves the alteration, expansion or rebuilding of an existing building a scaled plan of that building as it exists prior to any proposed work			
• Plans for each elevation of the proposal including all relevant architectural details			
• Australian Height Datum (AHD) for all building work including alterations and additions (existing and proposed levels) indicating wall heights, ridge height, floor levels and levels of the yard area belonging to that floor and the levels of the adjacent ground. <b>Note: RL level may be acceptable provided all levels relate to the permanent fixed height datum.</b>			
• A section or sections through the building including all levels in AHD /RL			
• Driveway levels section – from the property boundary to any new garage/ carport			
• Details of the finish of all excavated or filled battered banks expressed in a horizontal to vertical ratio and showing proposed levels.			
• Design of sediment and erosion control measures			
Note – Generic elevations for manufactured garages and carports are generally unacceptable			
<b>Floor Plans showing -</b>			
• Appropriately scaled ( e.g.1:100) indicating True North Point			
• Layout of each floor level			
• Gross floor area (in square metres)			
• Internal walls/partitions and room uses (existing and new) and the location and layout of all proposed facilities(Showers, basins, wc's, laundries etc.)			
• Calculations for all existing floor areas and proposed floor areas			
• Location of all landings and stairways.			
• Location of all essential fire safety measures (if any)			
• The height, design, construction and provision for fire safety and fire resistance (if any)			

Additional Plans and Information (If Applicable)	Applicant Tick	N/A	Office Use
<b>Structural engineers</b> certified plans and details			
<b>Manufacturers</b> wall frame and truss details			
<b>BASIX Certificate</b> (if cost of work is \$50,000 or more or pool is 40,000L or more. Includes alterations and additions more than \$50,000, does not include garages or carports)			
<b>Disability access</b> and accessible sanitary details – plan/ elevations from the property boundary and al provided accessible car parking to within the building			
<b>Part J Certification</b> Energy Efficiency report prepared by a qualified consultant required for all Class 2 to 9 buildings – Part J of the Building Code of Australia (BCA)			
<b>List of Fire Safety Measures</b> A list of Fire Safety measures showing any existing and all proposed fire safety measures (Class1b, 2-9 buildings only)			
<b>Plans containing details of the provision of all Fire Safety Measures for Class 1b to 9 buildings</b> The details need to include but are not limited to the requirements of Clause 146B of the <i>Environmental Planning and Assessment Regulation 2000</i> for hydraulic fire safety systems, fire detection and alarm systems and mechanical ducted smoke control systems as well as the			

operation of exit door latches, portable fire extinguishers, design and operation of emergency lighting and exit signage			
<b>General Information</b> Any requirements of the Development Consent that must be submitted with the “ <b>Application for a Construction Certificate</b> ” or “ <b>Prior to the issue of a Construction Certificate</b> ”			
<b>Specifications</b> that describe the construction and materials of which the building is to be built and the method of drainage ,sewerage and water supply (Booklets or on plans to detail the method of construction is in compliance with the BCA and Australian Standards)			
A statement as to how the performance requirements of the Building Code of Australia are to be complied with (if an alternative solution, to meet the performance requirements, is to be used)			
A description of any accredited building product or system sought to be relied on for the purposes of section 4.15 (4) of the Act			
Copies of any compliance certificate relied on			
Information relating to a construction certificate for any fire alarm communication works or hydraulic fire safety system in accordance with Schedule 1 of the <i>Environmental Planning and Assessment Regulation 2000</i>			
<b>List of Documents accompanying the application</b>			

Environmental Planning & Assessment Regulation 2000	Applicant Tick	N/A	Office Use
Builder’s (principal contractor’s) details - Name, address, phone number, license number OR  Copy of Owner Builder Permit (if work exceeds \$10,000) or Statutory Declaration attesting to value.  <b>NOTE</b> These details may be submitted to Council with the Notice of Commencement			
<b>Home Owner’s Warranty (HOW)</b> For licenced builders work with a value exceeding \$20,000
