

Section 5: Installation Details

Where tank water is installed and connected for toilet flushing and/or the laundry, and where there is the potential for indirect or direct connection to the town drinking (potable) water supply, special precautions in order to ensure backflow prevention must be taken and a development application will be required to be submitted.

Where the tank volume exceeds 22,500 litres, Council approval for the installation of the tank will be required under all circumstances.

Installation of rainwater tanks must comply with SEPP Exempt and complying Development Code Part 2 Division 1 Subdivision 32 and 33.

Contact Council's Customer Service Centre prior to proceeding.

Does the installation include an indirect connection of the town water supply for the purpose of topping up the rainwater tank during periods of low rainfall?	<input type="checkbox"/> Yes	<input type="checkbox"/> No
If yes, has the visible "air gap", external to the rainwater tank, been provided	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Does the installation include a direct inter-connection (cross-connection) of the town water supply and rainwater supply pipework?	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Has a backflow prevention device been fitted by a licence plumber?	<input type="checkbox"/> Yes	<input type="checkbox"/> No

What type of backflow prevention device has been fitted (please tick appropriate boxes)

No new device has been fitted	<input type="checkbox"/>	Testable double check valve	<input type="checkbox"/>
New dual check valve water meter	<input type="checkbox"/>	Reduced pressure zone valve (RPZ)	<input type="checkbox"/>
Non testable dual check valve	<input type="checkbox"/>		

Section 6: Licensed Plumbers Declaration

Name: _____

Business name: _____

Plumbers licence number: _____

Postal address: _____

Phone (business): _____

I certify that I have completed the plumbing work required to connect the rainwater tank supply on this property. This has been installed and connected in accordance with Council plumbing requirements and all relevant standards and codes.

Signature: _____	Date: _____

Section 7: Terms and Conditions

I agree to the following conditions:

1. I agree to only claim (1) rebate in relation to the rainwater tank rebate for each assessment.
2. The rebate is paid once per assessment regardless of the number of tanks installed, as such the rebate may have already been claimed by a previous owner and cannot be claimed again. The rebate amount is published in Council's Operational Plan annually.
3. To be eligible for the rebate the applicant must have installed a rainwater tank that:
 - a. Was purchased on or after 1 July 2012, evidence of purchase and installation is required;
 - b. Has a minimum capacity of 2,000 litres;
 - c. Is not installed as a requirement for new development or BASIX requirements;
 - d. Is not installed as a requirement on a condition of development / construction or subdivision consent;
 - e. Is in accordance with the current NSW Code of Practice Plumbing and Drainage;
 - f. Is on land that has an approved connection to a potable water supply owned by Council;
 - g. Is a new tank and is covered by a minimum of 12 months warranty;
 - h. Has all associated plumbing work completed by a licensed plumber;
 - i. Is used for collection and storage of rainwater for use on the site; and
 - j. Is to operate for a period of five years after installation.
4. Council has inspected internal plumbing connection to toilet and/or washing machine under s68 of the *Local Government Act 1993, NSW*.

Section 8: Property Owner/Managing Agent Declaration

I declare that:

- I have read and understand the Terms and Conditions of the rebate program and agree that by signing this application, I accept the terms and conditions;
- I have attached proof of purchase and installation for the rainwater tank.
- The information provided with this form and the information contained in this application is truthful and correct and I am eligible for the rebate; and
- The rainwater tank supplier has explained the design and expected performance of the rainwater tank to me in full.
